

Creating a Book in Boardmaker.....

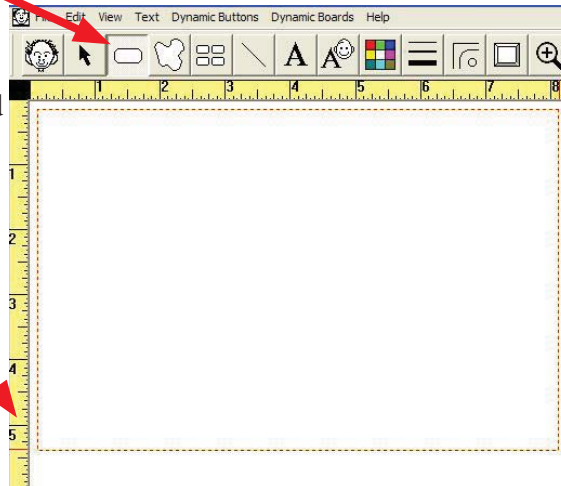

I. Open a New Board

1. Click File – **New Board**
2. Click File - **Save As**
3. Name the board.

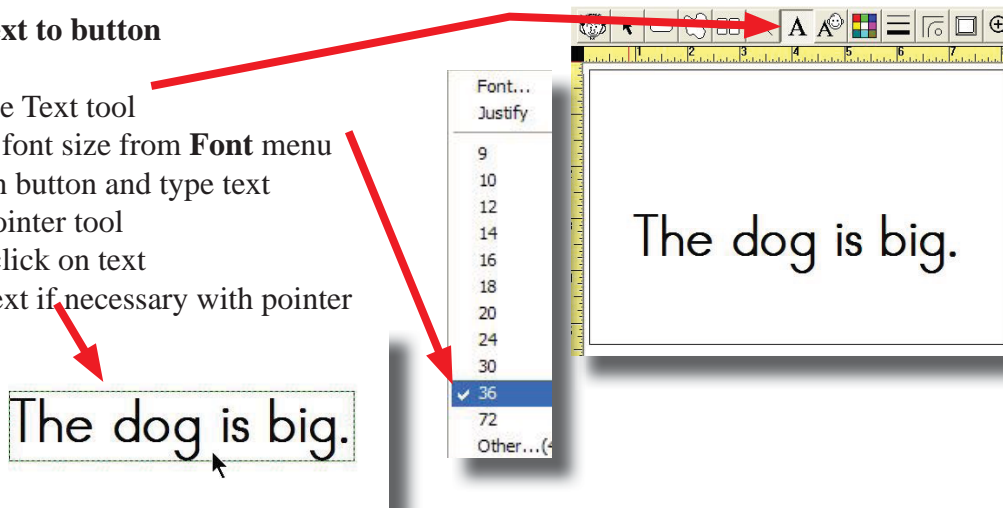

II. Draw a cell for page 1

1. Click Button Tool
2. Click and drag on white background to draw a button that covers about half of 1 letter size sheet of paper
3. Use rulers to guide you
4. About 5 1/4 inches is a good size

III. Add text to button

1. Click the Text tool
2. Choose font size from **Font** menu
3. Click on button and type text
4. Click pointer tool
5. Single click on text
6. Move text if necessary with pointer

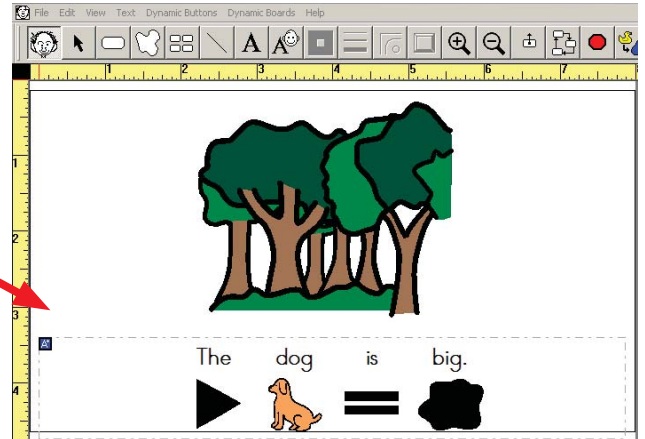

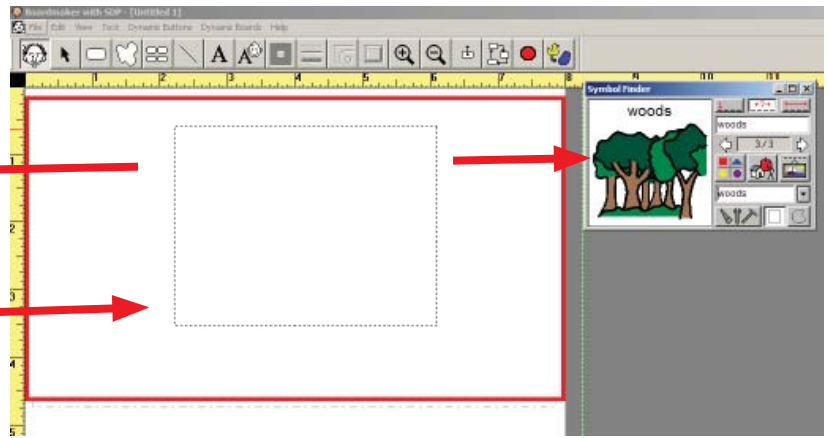

IV. Adding symbolate text to a button. (text w pics)

1. Click Symbolate Button
2. Click and drag to draw Symbolate Text box.
3. Type text in button. *Pics will appear after pressing Space or punctuation.*

V. Creating large picture for the story pages.

1. Find picture you wish to paste
2. Click and drag to create square the size you wish to paste the picture.
3. While looking for pics the symbolate text with pics may disappear but it is still there.
4. Both the new picture and symbolate text with pictures will reappear then.

VI. Making more pages.

1. You can always copy and paste buttons with information in them so that you do not have to reset font sizes etc.
2. To copy page button and symbolate button with text.
3. Click **Edit** and drag down to **Select All**.
4. Click **Edit** and drag down to **Paste**.
5. Move the buttons to show both pages on one sheet.

TIP: Pics are displayed in layers one of top of the other.

If you paste a tree first and then an apple second.

The apple will appear on top of the tree or in front of the tree.
